

Teach With Your Strengths

ACTION PACK

Taking Teachers to Greatness

Since its release, *Teach With Your Strengths* has created a buzz in education circles. That's because this award-winning book provides unique and groundbreaking insights into what makes great teachers great and how all teachers can improve their performance by making the most of their innate talents.

While teachers have individually been discovering their Top 5 themes of talent and learning how to build on them, many are ready for the next step — and want to share this discovery process with their colleagues.

Now, *Teach With Your Strengths* is coming to the classroom — and teachers are the students.

The *Teach With Your Strengths Action Pack* offers everything a principal, team leader, or staff development professional needs to bring the power of *Teach With Your Strengths* to the entire staff.

The *Action Pack* includes:

- a leader's guide
- participant guides
- 8 instructional DVD's
- name tags
- copies of *Teach With Your Strengths*
- theme posters
- drops — used to recognize excellent talent
- certificates of completion

The participant guide contains seven “chapters,” each with several activities that can be used with teams large and small. These activities encourage teachers to understand talent, own their own talents, and appreciate those of their colleagues. The leader's guide offers ideas that allow leaders to be flexible in their approach to development. Depending on each school or district's needs,

leaders can use the activities individually or use them to create an entire development event.

Both leaders and participants benefit from the DVD, featuring the authors of *Teach With Your Strengths*. For leaders, the DVD offers key insights to keep in mind as they guide participants through each session. For participants, the DVD sets the stage for each session and helps create a more personalized learning experience.

The *Teach With Your Strengths Action Pack* allows you to approach staff development with new eyes. Developing the innate talents of your teachers provides lifelong learning that can improve the outcomes that matter, like teacher retention, student achievement, and improved school culture. When educators discover and leverage their talents in the classroom, the whole school benefits.

For pricing or more information, contact Brian Dodge at brian_dodge@gallup.com or 949-474-2756. Be the first to bring this revolutionary approach to your school.
